

Guide to installing the marketing version of pCon.update

This marketing version gives you free and exclusive access to Cascando OFML data for pCon.update. The data of other manufacturers on pCon.update cannot be downloaded using this marketing account.

To use the Cascando marketing link, you must follow the steps below:

1. Download the ME version of pCon.planner:
<http://www.easterngraphics.com/su?ref=067b2d0e01f14f437ccda2318802275a>
 During installation register with pCon.

2. Activate the Cascando marketing link:
<https://update.easterngraphics.com/registration/CADO79>
 This is confirmed by Cascando.

3. Download pCon dataclient:
 Using the log-in data entered during step 1 you can log in to the following link
<https://update.easterngraphics.com/nl/login>
 Then go to the “Software” heading and download pCon.update dataclient.

4. Open pCon.update dataclient and run through the various steps. During this step Cascando's OFML data is downloaded and linked to pCon.planner.

5. A more detailed explanation on using this data in pCon.planner can be found in the guide "[Using Cascando OFML data in pCon.planner](#)".
