

## Manual for Cascando data in pCon.ME.

pCon.planner is a multifunctional planner that you can use to create 3D interior designs and presentations in just a few steps. The graphical representations of our products, in both 2D and 3D, have been enhanced using OFML (Office Furniture Modeling Language). OFML data contains additional information such as article numbers, recommended retail prices and product descriptions. You can configure the products easily by selecting options in a step-by-step process.

Design high-quality digital plans in a simple way, present them in 3D and access prices and other information directly to prepare your quotations.

Use Cascando OFML data in pCon.:

1. Download pCon.planner ME (seen in our download library) Also you can download via <https://bit.ly/2P9WjoU>
2. Download the Cascando data.
  - I. If you already use pCon you can do this easily via your existing installation of the program DataClient.
  - II. If you are a new user of pCon, register via <https://update.easterngraphics.com/registration/CAD079>
